

LAUREN SESSION

Los Angeles, CA 90057
Laurensession0923@icloud.com

PROFESSIONAL SUMMARY

Hands-on technician with experience in aerospace, maintenance operations, and fast-paced production environments. Background includes electrical and mechanical assembly, troubleshooting, tools, technical systems, and supporting engineers during active builds. Known for learning quickly, staying steady under pressure, and being someone, teams can rely on to keep work moving.

CORE SKILLS & CERTIFICATIONS

Technical: Hand & Power Tools, Digital Multimeter, Soldering, Connectors, Mechanical/Electrical Assembly, Troubleshooting

Electrical: Battery Systems, 100V Systems, LV/HV Wiring Harnesses, Avionics Support

Software: SAP, Solumina, Jira, Teamcenter, Excel, Power BI

Certifications: OSHA 10, HAZWOPER 40, MC3 Training

PROFESSIONAL EXPERIENCE

AIBOT US SUPPLY LLC

Engineering Technician / Junior Engineer | 2023 – 2026

- Helped build in-house eVTOL aircraft prototypes in a fast-moving engineering environment
 - Performed electrical and mechanical assembly using drawings and build instructions
 - Assisted with avionics, flight controls, wiring, and subsystem installs
 - Used digital multimeter for continuity checks, voltage checks, and troubleshooting
 - Worked inside MIRA and Teamcenter to support parts, documentation, and build changes
 - Worked side-by-side with engineers to solve fitment issues and keep builds progressing
-

Virgin Orbit

Production Coordinator | 2022 – 2023

- Supported daily production flow for aerospace builds by coordinating materials and priorities
- Worked with engineering, planning, and quality teams to hit deadlines
- Managed work orders, inventory, and tracking through Solumina
- Helped remove delays so teams could keep building

ACI Jet

Line Service Technician | 02/22 – 04/22

- Performed fueling, towing, marshalling, and aircraft support services
 - Worked safely around active aircraft, heavy equipment, and ramp traffic
 - Responded quickly to client and operational needs during busy shifts
-

Gulfstream Aerospace

Material Dispatcher | 2019 – 2020

- Handled urgent tooling, parts, and material requests for aircraft maintenance teams
 - Coordinated deliveries and solved shortages during time-sensitive AOG situations
 - Used SAP and internal systems to track inventory and movement of parts
 - Helped keep maintenance teams supplied and productive
-

Apollo Staffing (Gulfstream Aerospace)

Inventory Coordinator | 2017 – 2019

- Pulled, issued, and tracked parts for production and maintenance teams
 - Verified documentation to meet FAA standards
 - Maintained inventory accuracy in a fast-paced shop environment
-

EDUCATION & TRAINING

Orange Coast College

Airframe and Power-Plant Technician Coursework | 2019 – Present

- Airframe & Sheetmetal Composite Structures
- Hydraulic / Pneumatic Systems
- Electric Welding
- Turbine & Reciprocating Engines
- Fuel Metering & Lubricating Systems
- Blueprint Reading & Drafting

Chabot-Las Positas Community College District

MC3 Pre-Apprenticeship / Construction Readiness Training | 2026

- OSHA-based safety training
- Multi-craft exposure
- Jobsite readiness and construction fundamentals
